SPECIAL TAX BONDS OF THE STATE OF NORTH CAROLINA.

Letter from the Hon. T. L. Clingman, ex United States Senator.

ST. NICHOLAS HOTEL, Oct. 6, 1869.

Messrs. Henry Clews & Co.

GENTLEMEN:—In reply to your inquiries about North Carolina and her bonds, I can make only a brief statement, as I leave the city this evening. Publications have been made in several of the newspapers recently calculated to create a prejudice against the new or special tax bonds. Whether they have originated in the jealousy of the old bondholders, or may have been inspired by a desire to depress these bonds in the market, in order that they may be brought up at low rates for the benefit of speculators, it is not material to determine. These special tax bonds stand on a footing similar to that of preferred stock in certain corporations, and of mortgage bonds issued by railroad companies. It was not a matter of choice with the legislature of our State as to whether these bonds should have a special tax imposed to insure their payment. In fact, the legislature did issue some bonds without this tax feature, but the Supreme Court pronounced them unconstitutional and void. Under the decisions of our court, the legislature cannot increase the debt of the State for intended improvements, except to complete unfinished works in which the State had an interest at the time when the new Constitution was adopted. And even in these cases a special tax must be imposed in the act making the appropriation to pay off the interest as it becomes due. I need not remind you that this new Constitution was adopted in compliance with the requisitions of the government of the United States. It may, with propriety, be added that, while some of the provisions of the new Constitution are distasteful to many of our citizens, this clause seems to be universally approved. The legislature cannot add to the debt for new objects without the sanction of the majority of the people of the whole State, and it is well understood that in the present condition of things no such vote can be obtained.

The matter then stands on this footing: The Constitution of the State *compelled* the legislature to impose this tax, and the obligation was complied with and the tax imposed on all the property of the State.—The several acts were accepted by the companies, and they are not repealable or subject to alteration by a subsequent legislature. The Constitution, too, by one of its provisions, requires that the money raised by this special tax *shall be applied only* to meet the interest on the bonds. Hence these bonds would seem to rest legally on as firm and solid ground as a private debt secured by a mortgage. The obligation could only be gotten rid of by revolutionary action, which I do not think is contemplated by any one at the present time.

The taxes imposed in these acts are sufficient, when collected, to discharge the interest as it becomes due. In fact the Governor informed me recently, that at the rate at which the returns were coming in from the counties, there would be in the Treasury more money than was necessary to meet the interest. The present assessed valuation of the property in the State does not exceed $250,000,000, but the real value is at least fifty per cent. greater, or not below $375,000,000. I have been in many parts of the State within the last four years, and have been gratified to see that there has been a steady and by no means a slow increase in its wealth. The value of the personal property is twice what it was at the close of the war, while real estate has advanced in value from thirty to fifty per cent. This has occurred without the aid, to any considerable extent, of capital or immigration from abroad. It is due simply to the fact that our people work more and spend less than they did formerly.—As things are progressing, in a few years the value of our property will be quite equal to what it was in 1860; and as the special taxes are in the form of a certain per centage of the value, the amount raised will increase in proportion to the whole value of the property of the State. The excess above what is necessary to pay the original interest will constitute a sinking fund for the discharge of the principal of the debt. The Special Tax Debt amounts to the highest estimate to $6,240,000,—Rejecting the bonds, against the validity of which the Supreme Court has decided, the remaining debt swells the aggregate of the State's obligations of all kinds, whether immediate or contingent, to $34,289,945.

The payment of this debt depends on two things, namely: the ability of the State to pay, and her willingness to do so. As to her ability it may be assumed that her present property is of more than ten times the value of her liabilities. No one will deny that a man who is the owner of property of the value of one thousand dollars could pay a debt of one hundred dollars only. It must not be forgotten, too, that most of this debt is not payable short of a period of twenty and even thirty years.

Nearly half of it is only to be paid after the lapse of the longer period, and by that time the wealth of the State will most probably be five fold or ten fold what it now is. The expenditure to be made, as the result of these obligations, is almost entirely for works of internal improvement, which will largely add to the ability of the State to pay. There is not one of these unfinished works for which the late appropriations were made that is not in itself a proper and necessary undertaking, and as such was begun long since.

It should also be remembered that the State owns in connection with these and other works, stocks, bonds and mortgages, which in the aggregate amount to the sum of $27,481,000, and are nominally nearly equal to her liabilities. The completion of the works will enable her to realize a large sum from these sources. I know that last winter responsible parties offered to pay the State $3,000,000, in her outstanding bonds for her stock in the North Carolina or Central Railroad. In other words, she could have gotten back all she had ever invested in that road, and had the satisfaction of knowing that she had, without any loss to herself, completed a work which had added so largely to her wealth and general prosperity. When the works now in progress are completed, they will, by the increase of taxable wealth, and also by the value of the stocks and other securities greatly aid in the discharge of the obligations created. For example, when the Western North Carolina Railroad is finished, for the completion of which the means voted are, in my opinion, sufficient, it will, by its connections with Tennessee and Georgia, afford the shortest line between the South west and the ports of North Carolina and Virginia. The large amount of travel along it, and the cotton and other freight which would go to Norfolk or our own ports, would greatly enhance the value of several of the roads in the central and eastern parts of the State.

It may be well to remind you that North Carolina is larger in territory than either New York or Pennsylvania, having an area of more than fifty thousand square miles. The late professor Emons, who made the agricultural surveys both of New York and North Carolina, in an official report stated that a certain county in the latter State, if it were drained and cultivated in the best manner, was capable of producing more corn than at that time was grown in the whole State of New York. Should this be regarded as extravagant, it will nevertheless be conceded by those who have given attention to the subject, that the natural advantage of North Carolina, for agricultural and other branches of industry, surpass those of either of these great states. The financial condition of Pennsylvania and Maryland was thirty years ago little better than that of North Carolina is now, after the disasters of the late civil war, and yet no States in the Union are in advance of them in solvency and public confidence.

When I do attempt to enumerate the advantages which North Carolina possesses in her good climate, her mines and minerals, water power and agricultural productions, and her capacity to give support and wealth to a large population, I should be compelled to extend this letter to great length. I content myself with saying, therefore, that there is not the slightest doubt that she is abundantly able to discharge all her obligations. On the second point, viz: her willingness to do so, I have little to say.

It will be seen from the above statement that the special tax debt is on such a footing that its payment does not depend upon the action of any future Legislature, and that it can only be gotten rid of by a revolutionary movement which would overthrow the present State Constitution. Since the result of the last Presidential contest, I do not believe any such calculation exists in the State. Those who are dissatisfied with certain features in the new Constitution expect only to change them in the mode in which State Constitutions are usually amended. No alterations so made will affect the validity of the bonds, the payment of which is secured by these special taxes. The old bonds of the State have not this advantage, and may not be as promptly provided for.

The people of the State generally are satisfied that it would in the end cost more money to repudiate a debt than to pay it.

The suggestions of certain papers in North Carolina, republished occasionally in this city, that the whole or portions of the debt ought to be repudiated, have certainly injured the State considerably by depressing the price of the bonds and causing a loss of money, in the first place to the railroad companies, and secondly to the State.

But for this undoubtedly more money would have been raised by the sale of the securities, and the ability of the corporations to finish the works would have been greater. This effect, however, will be but temporary, as, when the facts are understood, the credit of the State will revive.—In conclusion, I have to say that I regard the special tax bonds of the State especially as a safe investment for such person as are seeking that class of securities. The attacks now directed against them, whether made for political effect or to put down the price so that parties here can buy them up at low figures, and thereby make large profits, will not in the end seriously affect their value.

As I shall leave the city to-day, you will excuse my saying that I have no personal interest in these questions, neither owning any bonds, nor having since the war been engaged, either directly or indirectly, in selling them.

Respectfully yours, &c.,
T. L. CLINGMAN.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, OCTOBER 14, 1869.

THE LOYAL LEAGUES AND THE KU KLUX.

We do not pretend to know the object and purposes of the Ku Klux; indeed, we do not know that there is such an organization; we have always doubted the existence of a general organization of that kind for political or other purposes.

But there is no doubt about the existence of Loyal Leagues. They exist, and were brought here mainly for organizing the negroes and ignorant white people in the interest of those adventurers known as "carpet baggers," under the pretense of devotion to the rights of the negroes and the Union. It has been a powerful organization, and the compass of its purpose very wide. It was not only very potential, but all the facts show it to be a deliberate conspiracy against society and against everybody who may oppose its sway, and that it is held together by the most searching and binding oaths. These oaths are tempered with provisions that embrace the Constitution of the Union and patriotic devotion, but they don't stop at this; they embrace provisions for mutual and common support and defense of all Leaguers. And, hence, we see these conspirators defending and supporting each other, everywhere and under all circumstances. These Leaguers go everywhere confident of each other's support and succor; they go into the Legislature, they go into the Executive and Judicial Departments of the government; they go to the ballot box and the jury box, and everywhere, confident of mutual and common support.

Are we sustained by facts in this view? We cite a few to illustrate the truth of what we say. The Governor of this State is known to have been the President of these Leagues in the State; he has often exercised the pardoning power in favor of Leaguers. In one case, from Wilson, we believe, certain negro Leaguers were indicted for beating almost to death, another negro for voting with the Democrats; they said they did it by order of the League; they were presented before a Loyal League Judge; able counsel procured a conviction; this Judge imposed a trifling punishment for so grave an offense, and even *that* was pardoned by a Loyal League Governor! We could name a number of cases where our League Governor has pardoned "foul" League criminals, after the clearest conviction, but we can not cite many, if any pardoned, who were not Leaguers. A few days ago, in Newbern, a League Judge prevented a witness from telling the secrets of the League, and certain purposes had in view by the League; he did this while counsel boldly insisted on letting the whole matter come out. This same Judge did not hesitate to get anything he could from witnesses against alleged Ku Klux. A Loyal League Judge and Solicitor recently turned three bloody Loyal League murderers loose upon society in Cherokee county—the enormity of this case is still fresh in the recollections of the people.

This same Loyal League went into the Legislature and passed an act of the most penal character for their benefit against the Ku Klux, while four-fifths of the crimes committed in the State are committed by Leaguers; few of these are punished, and such punishment as is imposed is light and trifling. Crimes perpetrated by Leaguers are rampant from one end of the State to the other, and, we ask, how many of the perpetrators are punished? There are murders, arsons, rapes and burglaries, and larcenies innumerable, yet how many such offenders are punished? Where do we hear that any of these offenders are hanged for their high-handed crimes? Seldom, if ever.

What is the reason for this state of things? Why is it that these offenders, so numerous, are so seldom punished? There is a reason for it, and that reason is the one we have above given. This Loyal League conspiracy is large, tremendous, and defies society and government.

We would not fear to wager any amount that nine tenths of the large number of offenders on the State docket in this, (Wake) county, are Leaguers, and this is right here under the eye of a League Executive who pardons the crimes of such foul offenders. You may swear the witnesses here who know the offenders, and they will be bound to sustain our statement.

Not only this; these Leagues and Leaguers have the audacity to establish, by money, taken from the people in the most sinister manner, a newspaper as its organ and apologist; a paper that tells the Leagues to "make no terms with Ku Klux, and to resist murder with death."

We repeat, we know nothing of the Ku Klux; if such an organization exists, we oppose it, and denounce any *crimes* it may commit, and insist that such offenders should be brought to justice, but let the Leagues be brought to justice, too! It is not astonishing, under the circumstances, that the people should arm for self defense. We again call upon the Governor to disband his Leagues, and to make war upon them, as well as upon the Ku Klux. He cannot expect the cordial support of the people, while he so sustains this engine of crime and outrage. "He must cease to be the Governor of the Leagues, and become the Governor of North Carolina." Let him do this, and the people will sustain him while he is in office. Let him abandon the "Ring," disperse the League, make war on crime, and uphold virtue, and the people will sustain him; they will not, if he don't. And they are not to be frightened by his threats, or the twaddle in the organ of the Leagues.

LETTER OF HON. T. L. CLINGMAN.—We give on our first page, to-day, a letter from Hon. Thomas L. Clingman, on the subject of North Carolina Bonds. We shall allude to this letter and the subject of it, at some future time. In alluding to this letter, the Wilmington *Journal* appropriately says:

"We have never advocated the repudiation of any part of our public debt. We do not do so now. The trouble is not in a wish to repudiate these bonds, but in the corruption attending their issue and sale. The credit of the State has not been so much injured by attacks upon the bonds, and threats of repudiation as in the extravagant and dishonest appropriations of the Legislature, and the incompetent and unreliable hands into which the disposal of the bonds have been placed. Here is the trouble, and Gen. Clingman should have done the people of North Carolina the justice to have stated it in his letter. Our people will do all in their power to pay their honest debts. Mendicants and adventurers may destroy their credit and increase their burdens beyond their ability to pay. Under carpet-bag rule the prosperity indicated by Gen. Clingman will not come to North Carolina, and neither the property nor the industry of her citizens can meet the burdens heaped upon them by irresponsible persons. There must be retrenchment and reform or the bonds of North Carolina will never improve, and the payment of the interest will be made only by the utter ruin of the people."

REMAINS OF THE LATE EX PRESIDENT PIERCE—FUNERAL SERVICES, &C.

CONCORD, Oct. 11.—The remains of ex President Pierce were removed from his late residence to Doric Hall, in the State House, at 11 o'clock, where they were open to the view of all who desired the opportunity. The procession from the house was composed of members of the bar, citizens and friends and twelve pall bearers, who were members of the bar.

The public schools marched in procession to view the body. Doric Hall was festooned in mourning, and a large floral cross was suspended over the body from the centre of the hall. Rev. Dr. Eames, of this city, Rev. Dr. Edson, of Lowell, and Rev. Dr. Lorbent, of Charleston, Mass., led the procession through the yard to the hall. A large concourse of people were waiting for an opportunity to take a last view of the departed. The coffin was covered with black cloth, with rich silver trimming.

CONCORD, October 11.—In accordance with the request of the mayor, all places of business were closed from 12 to 2 o'clock to-day. The remains of ex-President Pierce were taken to St. Paul's Church at 1 o'clock, where the rites of the Episcopal Church were performed by Rev. Dr. Eames and Dr. Colt, of St. Paul's several other clergymen being present and joining in the responses. The funeral procession left the church at two o'clock, and deposited the remains in their last resting place.

One of the stongest Radical papers in Texas—one indeed that has openly prided itself upon having been "the first Southern journal to advocate the election of Gen. Grant"—quotes a statement from the New York *Nation* to the effect that "Grant's administration has not only made bad appointments, but probably some of the worst ever made by a civilized Christian government," and then goes on to say:

Is not the same repeated in Texas? Do we not see men holding office whose presence would disgrace any parlor, and whose names would destroy the credit of any business firm that would receive them as clerks and bookkeepers, not to say partners? Do not men rule and govern us by Federal appointment, either direct or indirect, with whom gentlemen will not associate, and with whom honest men fear to die? This is notorious. This fact has covered the administration in Texas with more odium than loyal men can remove, and has made loyal men and Republicans ashamed to own their connection with the party."

What pain and disgust an editor whose pride and glory it was to have been the first to nominate Grant for the Presidency must have felt in the contemplation of wrongs and outrages before he brought himself to speak thus of the object of his old idolatry!—*Courier Journal.*

Cuba—Secret Meeting of Non intervention-ists—General R. E. Lee Offered the Presidency—Emancipation to be Gradual.

We copy as follows from the Louisville *Courier Journal*:

NEW ORLEANS, Oct. 4.—Responsible parties, who are just from Cuba, report here that a number of the wealthiest Cubans, who are opposed to insurrection, have held secret meetings, and resolved to unite with the resident Spaniards for independence.—General Robert E. Lee was resolved upon for President of the Republic of Cuba, and the position offered him for ten years.—Among other resolutions was one guaranteeing protection to life and property to all alike, and another providing for the emancipation of the slaves to be gradual. The documents offering General Lee the position of President have been forwarded to him.

Much excitement prevails in Craig county, Virginia, in consequence of the visit of the two Germans who own such an extensive tract of land in Botetourt and that county. It is estimated that the number of acres claimed by them is much larger than heretofore announced—30 000 acres, some placing it as high as 125,000. Should such be the case, a large number of persons will lose farms on which they and their ancestors have been living for at least sixty years, and which they believe properly belonged to themselves.

Postmaster General Creswell has opened negotiations with the British Post Office Department for a further reduction of letter postage between the United States and Great Britain. If this reduction be agreed to by Great Britain, it will establish an ocean penny postage between the two countries, and the combined rate of six cents, comprising a sea postage of two cent, and an inland charge of two cents in each country.

There are very damning evidences that Grant through his brother-in law, Corbin, who is one of the bulls of New York did have a finger in the gold fight. But Grant denies it. The question is, what is his denial worth? On this point consult ex President Johnson, who proved him to be a liar by the evidence of every member of his Cabinet. The man who takes Grant's word for anything is a most easy believer.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses.** It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have tested his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

Governor of North Carolina.

EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

NEW ADVERTISEMENTS.—A pair of Gold Spectacles lost by J. M. Towles, the finder will be liberally rewarded by leaving them at his store.

For sale or rent, two good family Residences in the Eastern Ward, on very reasonable terms of Mr. Towles.

House at auction, W. C. Stronach & Co., will sell at 12 o'clock to-day the frame building on the lot, known as the Kiem lot, near the Yarborough House.

Much to our regret, our Reporter, at Henderson, neglected to send us a report of yesterday's Fair. We can assign no reason for the failure.

MAYORS COURT.—Martha Ann Edwards, white, an old offender, was brought before His Honor, yesterday morning, charged with stealing a dress from Kate Jones, colored.

The theft was proven and a bond of $100 was demanded of Martha for her appearance at the next term of the Superior Court, in default of which she was taken to jail. We understand that Martha was only released from "durance vile," a few days ago.

We are glad to learn that a sufficient number of ladies have volunteered their services to the Committee on Floral Hall, to decorate and arrange the Hall for the coming Fair. Our ladies are never backward when called upon to engage in any good work.

Henry Smith will have a supply of fresh oysters on hand this evening. Leave your orders at the Telegraph office.

As so large a number of visitors, are expected in the city, during the Fair week, the Committee of Arrangements, desire to take steps looking toward the comfortable accommodation of all, in case our hotels and private boarding houses should be so crowded as to be unable offer the necessary accommodations. Therefore, J. J. Litchford Esq., in behalf of the Committee, will during this week, wait on heads of families, with a view of ascertaining to what extent arrangements can be made for the reception of boarders into private families, during said week.

Parties who are willing to enter into an arrangement of this kind, would greatly facilitate matters by reporting to Mr. Litchford, stating terms &c., &c.

A PILE OF ALMANACS.—We have from Eaniss, of the North Carolina Book Store, Turner's Alamanac for 1870, containing in addition to the usual matter of the Almanac, a synopsis of several important acts of the Legislature, with other useful matter.

Also, the Farmer's Almanac containing useful information to those engaged in that line of business, and,

Also, the Comic Almanac, greatly calculated to provoke laughter, and aid those who are engaged in *that* kind of business.

MIND YOUR EYE.—We are requested by Dr. M. Bernhardt to say that he is in Henderson this week, where he will remain during the Fair, and may be found at Kittrell's Hotel, where he will be pleased to see those who may desire his services for weak or imperfect sight.

Dr. Bernhardt has been several weeks in Raleigh, during which time he has furnished a large number of persons with his Brazilian pebble and Australian crystal glasses, and in no instance that we have heard of, has he failed to give satisfaction; on the contrary, those who have obtained glassed from him express themselves as highly gratified.

ART GALLERY.—Mr. Watson, the well known and popular Artist of our city, has now an establishment surpassed by none in the South, and is prepared to do all kinds of work in his line of business as cheaply and skillfully as it can be done anywhere. He has just received a complete and well selected assortment of Albums, Frames, and, in fact, everything to be found in a first class Art Gallery.

We tender our thanks to the Hollywood Memorial Association of Richmond Va. for a copy of a Register of the Confederate Dead, interred in the grounds of the Association. The Register, forms a neat and well executed pamphlet of 116 pages, giving the State, Regiment and Company of each soldier buried within the limits of the cemetery.

In the Preface of the Register, the following allusion is made to the Memorial Monument:

"The Memorial Granite Pile—pyramidal in form, forty five feet square at base and ninety feet high, containing blocks with appropriate inscriptions—is in process of erection. This structure, clad with vines and roses, will mark for ages the last resting place of those whose unfaltering devotion it commemorates—an enduring tribute to heroic virtue, cemented by the ties of sympathy and love."

Mr. B. H. Norris has been appointed night watch at the Fair Grounds. A most excellent selection.

The Wilmington *Journal*, of yesterday, gives a lengthy account of the "contempt case" now being tried in Judge Cantwell's Court. It says:

"By regular appointment, and according to the rule served, the Mayor, Mr. Joseph H. Neff; the City Marshal, Mr. W. P. Canaday; the City Clerk, Mr. Benj. Durfee, and the Superintendent of City Schools, Gen. Allen Rutherford, were before Judge Cantwell yesterday to answer to a charge of contempt of Court. The matter of contempt charged was the dispossession of the Special Court Clerk of the office temporarily assigned him in the City Hall. With this little war our readers are familiar in its most important details. But another matter of "contempt" appeard in the case. After reciting the facts which led to, and the manner of, the Clerk's dispossession, as contained in the affidavit, the rule also went on to impute "contempt" to the Mayor, Jos. H. Neff, for the insertion of a newspaper advertisement, giving notice that application would be made to the Legislature at its next session to abolish the Special Court of this city. It appeared on the oath of the publisher of the paper in question that the advertisement was inserted by order of Mr. Neff, with the express declaration that if Judge Cantwell wished to know who inserted it, he was to be informed, and that the publisher was at liberty to convey this information immediately.

* * * * * * *

Here followed long argumen's by Hon. S. J. Person and Mr. London Esq., who appeared for the respondents, upon a motion to discharge the rule, which we for the lack of space are unable to give even a synopis.

At the conclusion of the agruments His Honor, according to the *Journal* argued thusly:

"The Judge stated the question to be whether the act of the General Assembly embraces all classes of contempt. From the decision in the case of the State vs. Moore, he concluded there was such a class. It follows, then, that the motion is irregular and ought not to be allowed—it ought not to be *entertained*. He insisted that the Supreme Court did convict of contempt Messrs. Moore and others. [Judge Person here arose and stated distinctly that the Supreme Court, for he was one of the counsel in that case) did acquit those gentlemen of contempt, and merely convicted them of *misbehavior* as Attorneys of the Court.)

The Special Court, the Judge resumed, had a rigat to sit one week or longer it its business required it. The records show no adjournment from July 'till October, and at the time the contempt was committed the Court was in session. As a matter of law it made no difference whether the Court was in session, and this was not necessary for it to receive a contempt to its authority. But the Court not having been actually in session, it relieved the matter of an embarrassing serious position; but clearly a contempt, under the act of Assembly, had been committed—a proceeding directly tending to interrupt the proceedings of the Court—one can scarcely conceive of a proceeding more direct.

The motion was therfore refused. Defendants required to answer.

The Judge then proceeded to state that, Mr. Durfee was merely acting in obedience to the authority of the city government.—The rule as to him, as he meant no contempt of Court, will be discharged. Same ruling as to Mr. Canaday, the Marshal, and Gen. Rutherford. In the case of the other defendant, Mr. Neff, the Mayor, the rule was continued as to him, and 11 o'clock Wednesday, the 13th, appointed as the time an answer may be filed.

The ball given in honor of the officers of the "Cuba," on Monday evening last, is spoken of by the Wilmington papers as having been a "glorious affair."

There are a series of interesting prayer meetings progressing in the Baptist Church in Newbern.

It is stated that the infamous L. D. Wilkie, is about to take up his residence in Newbern. The citizens of that unfortunate community have our profound sympathy.

OHIO.

CINCINNATI, Oct. 13.—Hamilton county gives Pendleton 500 majority and elects entire Democratic municipal ticket.

It is probable that Pendleton is defeated by a very small majority, though corrected returns may possibly elect him. The House is Democratic and the Senate Republican. This defeats the State's sanction to the 15th Amendment.

CLEVELAND, Oct. 13.—Returns from a third of the State show a loss for Hayes of 5,000; this average carried throughout the State will elect Hayes by 5,000. Many Democratic strongholds are still unheard from.

PENNSYLVANIA.

PHILADELPHIA, Oct. 13.—Senate 18 Reps. to 15 Dems; House 50 Reps. to 17 Dems, giving the Republicans 22 majority on joint ballot.

All the papers, but the *Age*, give the State to Geary by from 5,000 to 10 000. The *Age* claims the State for Packer by 5 000.

Both branches of the Legislature are Republican.

WASHINGTON.

WASHINGTON, Oct. 13.—Geary's majority in 36 counties is nearly 5,000. Remaining 30 counties must average 157 gain to elect Packer. The election is very close, with chances in favor of Geary.

A few detailed returns from Ohio indicate Pendleton's election.

Jas H. Cunningham, negro, has been appointed Postmaster at Manchester, Va.

Another case, involving the constitutionality of the state tax on importations, was argued in the Supreme Court; the case comes from Mobile.

[The crowded condition of our columns and the lateness of the hour at which we received our Richmond dispatches, prevents us from inserting them.]

The Hillsboro' *Recorder* gives the following account of the finding of some relics of by gone days in that town:

"It happened thus: Capt. Berry, in digging a foundation for the new store he is erecting struck upon a rich soft soil that led him down into a well constructed cavern where were found old champagne bottles, wine glasses of the finest and most beautiful cut glass, and china ware of the most delicate and variegated tints. Right near the spot once stood the headquarters of the Provisional Government in 1770-75. It is probable they might have dug the cave to hide valuable papers—as during the war the Tories were continually dashing in on them. We can't say who dug the cave, but they might have left one of those champagne bottles loaded with the "spirit of '76."

On Friday last, a most daring but unsuccessful attempt was made by some negro prisoners to break out of the Halifax county jail.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES,
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
DEER'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

FROM DR. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:
SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long need no eye when those could be obtained.

FROM REV. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.
RALEIGH, N. C.

I have examined the Geographies—Monteith's (No. 4) and McNally's (No. 5) and find excellences in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's (No. 4) into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.
ALBERT SMEDES.

FROM J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:
GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Gauge in particular.
J. W. GULICK.

FROM Col. WM. BINGHAM, Prin. Bingham School, N. C.
The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.
"We shall introduce Davies' Boardon, perhaps others of your books."

FROM Dr. CLOSE, Prin. Durham Academy, N. C.:
DURHAM, N. C.

I design introducing the present session Mc-Nally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.
M. CLOSE.

FROM M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.
NEWTON N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.
M. L. LITTLE,
Prin Pleasant Hill Seminary.

FROM Rev. S. IVEY, Prin Auburn Academy N C.:
AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.
STINCHCOM IVEY.

Prof. WM. A. OBENCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

FROM J. R. DUDLEY, Esq., Prin. Male Academy, Warrenton, &c.
WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no series superior to them as a whole.

I have examined with a view of introduction, "McNally's Geography" (No. 5) and "Peck's Gauge's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.
J. R. DUDLEY.

FROM W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

FROM REV. O. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.
MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Gauge, with much acceptance.
O. D. BERNHEIM.

FROM Prof. JOS. H. FOY, President Stantonsburg Seminary High School, N. C.
WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.
J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1866.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First, 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1866

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1866.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1866.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

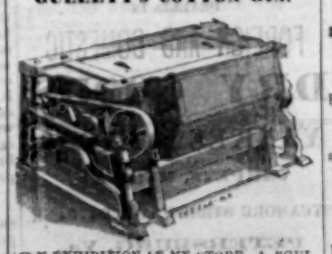
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room wherever it is being ginned; does not cut the lint, but brings it out in beautiful tufts.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins named in this advertisement, after fair trial, it will be no sale.
